

SOLIU SHERIFDEEN

Lagos State Nigeria | +2348102825111
Sherifdheen@Gmail.com

Summary

A passionate frontend web developer with strong foundation in modern web technologies, including HTML, CSS, Tailwind, JavaScript, TypeScript, and React. I specialize in creating visually appealing, responsive, and user-friendly web applications that deliver seamless user experiences.

Experience

Fabulous IT Solution | Lagos State, Ikeja **Junior Frontend Engineer | 03/2022 - 08/2024**

- Assisted the development team in maintaining 18 websites.
- Implemented front-end technical solutions to meet project requirements for creation of 8 new web pages.
- Conducted research and assisted with new business scoping efforts, resulting in the acquisition of 4 clients.
- Partnered with several designer teams to take client wireframes & figma files from conception to implementation.

Mustech Institute and Laboratory | Kwara State, Ilorin **Frontend Engineer Intern | 01/2021 - 10/2021**

- Collaborated with cross-functional teams to implement responsive UI components, ensuring seamless integration with backend services.
- Designed and developed user-friendly interfaces using modern front-end technologies like HTML, CSS, JavaScript, and React.
- Worked closely with the design team, translating Figma mockups into interactive, pixel-perfect web pages.
